

PRABU NARENDRAN S (FRONTEND DEVLOPER)

2/63, West street, Sakkamalpuram, Sawyerpuram, Tuticorin - 628 251, Tamil Nadu.
7339358264 | prabunarendran@gmail.com

Objective

To leverage my technical skills and experience in web development to contribute to the success of a progressive organization. And utilize my expertise in HTML/CSS, JavaScript, React, Firebase and other front-end web development technologies to create innovative user experiences.

Experience

- Maruti Computers Pvt Ltd** 15/02/2021 -
Software Developer
At Maruti Computer Pvt Ltd, I contributed to the development and maintenance of software solutions over a span of 3 years and 4 months. During my tenure, I actively participated in two significant projects, leveraging my skills in software programming and development methodologies.
Key Responsibilities and Achievements:
 - Developed and implemented robust software solutions in collaboration with cross-functional teams, adhering to project timelines and quality standards.
 - Utilized React Js & Redux technologies to design and code software components, ensuring scalability and performance optimization.
 - Actively participated in team meetings and contributed innovative ideas to improve project efficiency and code quality.**Skills Developed:**
 - Strong understanding of software development lifecycle (SDLC) and agile methodologies
 - Problem-solving skills and ability to troubleshoot technical issues efficiently
 - Effective communication and teamwork in a collaborative environment

Education

- Kings Engineering College** 2019
BE - Computer Science
62%

Skills

- React Js, Redux, Firebase
- SQL server
- Web Development (Html, Css, JavaScript)

Certification

- React Js Course in Udemy
- Completed Web Development(Html, Css, JavaScript) Course in Udemy

Projects

- **Poise Accounting - Web-Enabled Financial GST Solution**

Company: Maruti Computer Pvt Ltd

Duration: March 2022 - Present

Role: Front End Developer

Description:

Developed front end features for Poise Accounting's internet-based, web-enabled financial GST solution catering to small and large firms. The software aimed to enhance operational convenience and streamline accounting processes.

Key Technologies Used:

- **React Js:** Designed and implemented interactive user interfaces and components using React for efficient rendering and state management.
- **Redux:** Managed application state and ensured predictable data flow across the platform.
- **Firebase:** Integrated Firebase for real-time data synchronization, authentication, and cloud storage.
- **JavaScript:** Utilized ES6+ features to implement dynamic functionalities and enhance user interaction.

Tools Utilized:

- **VS Code:** Leveraged VS Code for coding, debugging, and version control integration, ensuring code consistency and collaboration.
- **GitHub:** Managed codebase on GitHub, facilitating version tracking, peer reviews, and collaborative development.

- **CRM(Sales & Marketing)**

Company: Maruti Computer Pvt Ltd

Duration: 16/02/2021 to 20/03/2022

Role: Full Stack Developer

Description:

Contributed to the development of a comprehensive Customer Relationship Management (CRM) software tailored for printing companies. The software facilitated efficient management of customer relationships and streamlined operations within the printing sector.

Key Technologies Used:

- **C#:** Developed backend logic and business logic using C# for robust functionality and integration capabilities.
- **SQL Server:** Designed and maintained relational databases on SQL Server for storing and managing critical data such as inventory details and customer information.

Tools Utilized:

- **Visual Studio:** Leveraged Visual Studio as the primary Integrated Development Environment (IDE) for C# development, providing a suite of tools for code editing, debugging, and deployment.
- **SQL Server Management Studio:** Used SSMS for database development, management, and querying, ensuring data integrity and performance optimization.
